This maximum time limit is established in consideration of the provisions of Article 36(1) of the Law on Payments of the Republic of Lithuania. 8. The Application may be submitted in the following ways:

 2. by sending an email which clearly sets out the Application and provides the information required in clause 9, to pagalba@paysera.lt;

9. Regardless of the method of submitting the Application, it must clearly state the following information, which is necessary for a proper investigation to be conducted:
 1. the first name and surname (or company name) of the Client in whose name the Application is being submitted;
 2. the contact telephone number of the Client in whose name the Application is being submitted;

 5. the amount of money deposited (or overpaid / stuck);
 6. the bank account (IBAN) to which the money should be refunded, and the first name and surname of the bank account holder.
10. If the Application is completed by another person (not the Client to whom the incident occurred), in addition to the information specified in clause 9, the following details must also be provided:
 1. the first name, surname, and contact details (telephone number, email address) of the person completing the form;
 2. the relationship between the person completing the form and the Client (e.g., relative, guardian, authorised representative);
 3. a mandatory document confirming the right to submit the Application (e.g., a notarised power of attorney, a court order on guardianship, a copy of a contract) and/or confirmation from the Client that they consent to the Application being submitted and their data being transferred by a third party. Without such confirmation, the Application will not be considered.
11. It is recommended to attach all available evidence to the Application, such as:
 1. a copy of the payment receipt (if issued);
 2. screenshots (if applicable);
 3. other documents confirming the event.
12. All received Applications and the documents attached thereto are registered and stored in the Company's information system in accordance with applicable legal acts and the Company's internal procedures.
